

Cancel recurring payments

The 6 month and 12 month subscriptions both have automatic renewal as their default setting, which means that the money will be automatically transferred when your subscription is renewed. (My test pilots preferred it like that.) However, if you feel like you want to stop the recurring payments, it's quite easy to change the settings.

How to do it:

1. Log in to your user at Fiddle Academy.
2. Scroll all the way down, to the black square at the bottom. In the left column, you'll see the words: User profile. (See image 1)
3. Click on "User profile". That will take you to your user's profile info and subscription details.
4. Click on the menu choice in the middle: My Subscriptions. (See image 2)
5. On the right hand side, you will now have the option to "Cancel subscription". Click it. That will cancel recurring payments, and you will see information about how long you have left on your previously paid subscription.

If you can't find an option to cancel recurring payments, it might be because you paid with PayPal. Some subscribers have had to cancel their recurring payments directly on their own PayPal account. In that case, log in to your PayPal account, find the Fiddle Academy payment and cancel it there.

If something doesn't seem to be working, just let me know and I'll help you. :-)

Thank you for your support, and Welcome back to Fiddle Academy any time!
